Vladyslav Konokh

.NET Software Engineer
Kyiv, Ukraine • actuallydisrespectful@gmail.com • linkedin.com/in/vladyslav-konokh • t.me/DisrespectfulOne • github.com/M1re • m1re.github.io

Professional Summary

.NET Software Engineer with 5+ years of commercial experience designing and building enterprise microservices in C#, ASP.NET Core and React. Delivered production systems in identity and access management, digital workplace and laboratory automation domains, owning features end to end: API design, data modelling in MS SQL and MongoDB, integrations with Azure, AWS, Okta and Keycloak, CI/CD and production support. Focused on clean architecture, performance and reliability, currently deepening DevOps expertise.

Professional Experience

.NET Software Engineer Jan 2025 - Present
DataArt **Remote, Kyiv**
Secure, scalable platforms for biological sample storage, logistics, genomic services, lab robotics and AI-driven analysis.

- Architect and build microservice applications in C# and .NET Core.

.NET Software Engineer Aug 2023 - Jan 2025
GlobalLogic **Remote, Kyiv**
Digital workplace platform for internal communication, collaboration and knowledge sharing.

- Architected and built C#/.NET Core microservices and RESTful APIs with authentication and authorization.
- Designed NoSQL data models and established communication protocols between microservices.
- Applied performance optimization techniques and profiling tools to improve system efficiency.
- Integrated third-party services, SDKs and APIs into the platform.
- Streamlined deployments with DevOps through GitHub CI/CD pipelines and Azure Bicep.

Junior .NET Software Engineer Jun 2021 - May 2023
GlobalLogic **Remote, Kyiv**
Enterprise Identity and Access Management (IAM) platform automating user provisioning, deprovisioning, access control and security analytics.

- Designed and developed microservices with C#/.NET, TypeScript and React.
- Built scalable RESTful APIs with authentication and authorization; implemented inter-service communication.
- Designed relational (MS SQL) and NoSQL (MongoDB) databases based on project needs.
- Integrated AWS, Azure, Okta and Keycloak into the IAM workflows.
- Implemented CI/CD pipelines with GitLab CI/CD, Docker and GCP together with DevOps.
- Developed responsive React user interfaces and wrote unit and integration tests.

Education

Bachelor of Science in Computer Software Engineering Sep 2019 - Sep 2023
State University of Telecommunications Kyiv, Ukraine

Certifications

Claude Code 101 – Claude Academy (Anthropic) (verify) Nov 2026

Skills

Languages: C# • TypeScript • JavaScript • SQL • PowerShell
Backend: .NET • ASP.NET Core • ASP.NET Web API • REST APIs • Microservices • CQRS • MediatR
Frontend: React • HTML • CSS
Data & Messaging: MS SQL • MongoDB • Redis • Kafka • RabbitMQ
Cloud & DevOps: Azure • AWS • GCP • Docker • GitHub Actions • GitLab CI/CD • Azure Bicep
Security & Testing: Okta • Keycloak • OAuth 2.0 • Unit Testing • Integration Testing

Languages

English: C1 • **Ukrainian:** C1 • **Russian:** C1 • **German:** A2 • **Polish:** A2
